What is the IEA license for a 100 MW solar PV project?

IEA. Licence: CC BY 4.0 Cost of capital in different countries for a 100 MW Solar PV project, 2019-2022 - Chart and data by the International Energy Agency.

How much does a 10 MW solar farm cost?

This estimate means a 10 MW solar farm will have annual operating and maintenance costs of around \$150,000. Considering a solar farm with an installed cost of \$10.6 million, annual operating and maintenance costs would equal around 1.4% of project costs. Regular cleaning is the most important maintenance requirement of a solar farm.
