Who is SunPower solar?

As the leading clean energy company in Northern California, we specialize in SUNPOWER solar systems, energy storage, estate scale battery backup and electric pool heating to fully satisfy your residential or commercial property.

Who makes American-made solar panels?

American-made solar panels may not always come from American companies, but they are built by American workers. Here's more information about five of the biggest, best companies that make solar panels in the USA. The top five solar panel manufacturers in the U.S. are First Solar, Qcells, Silfab, Jinko Solar, and Mission Solar.

Who can benefit from SunPower solar panels?

Smart homeowners, businesses, and non-profits achieve massive energy cost savings with SUNPOWER solar panels from American Solar.

Are American-made solar panels any good?

It's worth pointing out that none of the American-made solar panels have cracked the very top tier of our performance rankings (those honors belong to Moxon, REC, and Panasonic, each of which builds their panels in other countries). But U.S.-made panels such as Qcells and Canadian Solar, are ranked close behind.

What is the future of American solar manufacturing?

One American company, SEG Solar, opened a 2-gigawatt manufacturing facility in Houston Texas in August of 2024. Due to the IRA and some forward-thinking companies, the future of American solar manufacturing is bright. As homeowners shop for solar, they are nearly as likely to be offered American-made panels than products from anywhere else.
