Guoli Nie"s 7 research works with 6 citations and 74 reads, including: Off-Grid RFI Suppression Method in Synthetic Aperture Radar Based on Mismatch Reconstruction and Dictionary Rotation

Together, we could realize sub-1 nm gate length and sub-50 nm channel length for vertical MoS 2 transistor simultaneously. The self-aligned device exhibits on-off ratio over ...

Abstract: The stability of the grid-connected inverter (GCI) system in weak grids is deteriorated due to the asymmetric positive-feedback loops (APFLs) introduced by the phase-locked loop ...

Over the last few years, the smart grid has gained wide attention for its potential to address the challenges in the traditional power grid, such as increasing load demands, quickly aging ...
