

Automation equipment for photovoltaic panels

No wonder automation companies are developing solutions for the solar panel market. Taylor says that Europe has been the photovoltaic leader, but that the U.S. market is rapidly developing. Putting to rest the myth that ...

Powered Lift and Shift - This solar panel cleaning system is great for utility-scale installations where a tractor cannot be used or the ground is pure sand like in the Sahara or Atacama desert. With this solution, the ...

To improve the efficiency of solar panels, the removal of surface contaminants is necessary. Dust accumulation on PV panels can significantly reduce the efficiency and power ...

We are at your side in each stage of building your solar panel factory and production lines. Consulting. Express your needs on solar panel producing, we will create your custom automation equipment. Designing. Our professional ...

We have accumulated high technology in PV industry from development and sales of PV module manufacturing equipment to panel reuse/recycling. Now we provide it for a variety of industries including electronic parts, automobiles, and ...

Our complete solar turnkey line offers: Compact and optimised lines reducing the space required. Robust design to work 24 hours a day, 365 days a year. Low energy consumption and easy maintenance. Less manpower required. Full ...

PV Module Manufacturing Equipment. We provide a wide range of manufacturing equipment for thin film (compound, organic, perovskite, etc.) and next-generation PV modules utilizing our 30 years of experience and expertise accumulated in ...

Maximo is the only construction automation solution that provides the full end-to-end mechanical installation of solar modules directly in the field. The solar robot results in faster installation and creates safer working conditions, as ...

As the solar industry has grown over the years, the SDC team has developed many types of automated testing and inspection equipment for photovoltaic (PV) module manufacturers. All our PV module testing equipment can be ...
