What is a bike phone mount?

A bicycle phone mount is exactly the same as a bike computer mount, except that instead of a computer it lets you attach a smartphone securely to your bars, stem or top tube. An advantage of this is that you don't need to shell out for a separate bike computer.

Should you mount your phone to a bike?

Naturally, this means more riders are looking to mount their phone to a bike. While the best bike computers put everything you could possibly want in a compact, bike-specific package, some riders prefer a smartphone - especially for commuting bikes and hybrid bikes. There are pros and cons to both.
