

What are roof-integrated solar panel roof tiles?

Our roof-integrated solar panel roof tiles act as both a roof covering and electricity generating solution. Pick from the pre-built kits of our 405wp panel (which includes everything you need) to suit your requirements. What's included in the kits? Super sleek design and flush fit for enhanced kerb appeal.

Are solar PV roof tiles a good choice?

An ideal choice for both roof refurbishments and new-build projects, Solar pv roof tiles provide an uncluttered aesthetic with no visible brackets or racking, as well as easy maintenance and our market-leading 15-year guarantee. Marley SolarTile® can be fitted as part of a typical roofing project and installation is fast.

Why should you choose Solarstone® solar tiled roofs?

Solarstone® solar tiled roofs are a cost-effective and modern choice. Solarstone® offers prices that are competitive with conventional on-roof solar installations. Installing a Solarstone® Solar Tiled Roof is easy and efficient, with a simple gabled 60 m<sup>2</sup> roof being completed in just 1 day.

Are SunTegra solar shingles a good choice?

The solar shingles of SunTegra offer 3 different models with a range of power output between 105W and 114W. All of them use 24 monocrystalline cells per piece, capable of achieving an electrical efficiency from 15.9% to 17.2%. On the other hand, SunTegra tiles have lower efficiency than the shingles, ranging from 13.9% to 15.1%.

Are Solarstone® BIPV panels a good choice?

Solarstone® BIPV panels are a good choice for harnessing solar energy as they are designed to give you clean energy and protection for decades. The panels function as permanent roofing material and come with a 25-year Production Warranty, reducing concerns about energy bills and price fluctuations.

Solar roof tiles are significantly more expensive than standard solar panels, typically costing about 200-400% more. For instance, while a 3.5 kilowatt peak (kWp) standard solar PV system for an average three-bedroom ...
