

# Can Vietnam import photovoltaic panels

## Can they be used

Can I import solar cells from Cambodia?

Imports of solar cells and modules from Cambodia, Malaysia, Thailand, and Vietnam will not be subject to suspension of liquidation or cash deposit requirements if accompanied by a certification attesting that they are not circumventing the ADD/CVD orders. There are three types of certifications:

Why is China shipping solar products through Cambodia?

Commerce found that certain Chinese producers are shipping their solar products through Cambodia, Malaysia, Thailand, and/or Vietnam for minor processing in an attempt to avoid paying antidumping and countervailing duties (AD/CVD).

Can I reuse pv-magazine content?

If you want to cooperate with us and would like to reuse some of our content, please contact: [editors@pv-magazine.com](mailto:editors@pv-magazine.com). Import tariff rates range from 0.14% to nearly 300% of the cost of shipped goods on certain solar cells and modules shipped from Malaysia, Vietnam, Cambodia, and Thailand.

Are solar cells being circumvented from China?

Because Commerce found that circumvention was occurring through each of the four Southeast Asian countries, Commerce continues to make "country-wide" circumvention findings, which simply designates each country as one through which solar cells and modules are being circumvented from China.

Clean energy specialists have proposed the government waive import duty on solar panels and inverters in Budget 2023 as solar installations rely heavily on both. This will encourage renewable energy (RE) adoption and ...

The new provision will allow electric self-sufficiency to Cubans who can install a solar panel on their homes. (wikimedia) 14ymedio, Havana, July 29, 2021 -- In the midst of a pressing electricity shortage, the Cuban ...
