

Can a five-layer storage cabinet be used as a bedside table

What is a bedside cabinet?

Bedside cabinets are similar to bedside chests but offer more storage space than the chests. In addition to a flat surface at the top, they may feature a drawer or two chests. But what makes them unique is that they also have a handy cabinet with a door, which is useful for storing larger items.

How high should bedside tables be?

Before you purchase bedside tables you should measure from the floor to the top of your bed with the mattress and bedding on top. This is the height guide you should use for your bedside tables. You can go about 10cm higher or lower here, but nothing more. Any height variation over this and the bed sides will look like a mistake.

What are the different types of bedside tables?

Bedside tables are called by many names including 'nightstand', 'night table', 'daystand', 'bedside cabinet'. Modern bedside tables are a small cabinet with one or sometimes more drawers or shelves. Today, we will discuss 3 different types of bedside tables and their benefits. Bedside tables are amazing at boosting the aesthetics of your bedroom.

What are the best bedside table alternatives?

Here's a complete list of bedside table alternatives that you can use that are even better: 1. Wooden Logs You might have come across this idea before or not but they're super popular right now. Using wooden logs as a bedside table is a perfect choice if you want to save space but also make your room look good.

Can a dresser be used as a bedside table?

If your bedroom is big enough, use a dresser as a bedside table. This will create more surface space so you can have two lights and room for your knick knacks. Conversely, if your room is too tiny to fit both a bedside table and a dresser, opt for the latter since it also provides storage.

What can a bedside table support?

A bedside table can support many things including a table lamp or alarm clock. This is useful if you have a habit of reading books before bed or you have difficulty wake up early in the morning. Or you can just use it to put a glass of water, books, phone, or any other items. After using the laptop you can easily place it on a bedside table.
