

Canadian Solar Monocrystalline Panel Manufacturer

Who makes the best solar panels in Canada?

If you're looking for a product that functions well, no matter the situation thrown at it, GMA Solar panels are the top PV modules in Canada. Products from Power Company is the only manufacturer of Solar PV modules in Quebec, Canada.

Is Canadian Solar a good solar company?

Canadian Solar is one of the 5 biggest solar panel manufacturers in the world, with 20 years in business, and SolarReviews has named the company the fifth-best solar manufacturer of 2024. The company's residential solar panel lines are HiKu, HiKuBlack, and HiKu6, giving homeowners options in terms of performance and price.

What types of solar panels are available in Canada?

Much like the residential range, the most popular commercial panels from Canadian Solar are the Ku and HiKu series, which are also available in both polycrystalline and monocrystalline varieties.

Is Canadian Solar a vertically integrated company?

The company is partially vertically integrated, meaning they not only make solar panels (also called 'modules'), but also produce some of the raw silicon ingots, wafers, and solar cells that go into those panels. Here's a video of SolarReviews CEO Andy Sedy discussing his thoughts on Canadian Solar:

Is Canadian Solar a mono-PERC or multi-PERC?

In August of 2019, all of Canadian Solar's cell capacity was upgraded to mono-PERC or multi-PERC. On the module product side, Canadian Solar has been producing half-cut cell modules (Ku-series), bifacial modules (BiKu), multi-bus bar (MBB), 166mm wafers (HiKu and BiHiKu) and shingled modules (HiDM).

Is Canadian Solar a bankable company?

Canadian Solar is a publicly traded company (NASDAQ: CSIQ) since 2006 and is one of the more bankable companies in the solar industry. The company achieved revenue of \$3.74 billion USD in 2018 and is listed as a Bloomberg Tier 1 Module Manufacturer. Canadian Solar produces high efficiency monocrystalline and polycrystalline solar panels.
