

Choose Baosteel Photovoltaic for the pipeline corridor support

Will Zhanjiang Iron & Steel Plant get photovoltaic power?

On December 15, 2021, the photovoltaic power generation (phase I) project of 48.2MW installed capacity of Zhanjiang Iron and Steel Co., Ltd. was successfully connected to the grid and successfully sent out the "first" photovoltaic power on the roof of Zhanjiang Iron and Steel Plant.

Is Baosteel a good steel company?

Bao Ping, chief engineer of Automotive Steel Plate Technical Services at the Shanghai-based company, said despite the domestic steel industry's weak performance since the latter half of 2022, Baosteel has maintained its position at the top in terms of total profit and outperformed its competitors last year.

What makes Baosteel unique?

This strategy is built around a specialized portfolio family that highlights plates and silicon steel, alongside a range of differentiated products. In 2023, Baosteel achieved a sales volume of 27.92 million tons within this portfolio, up 10 percent year-on-year. Sales of cold-rolled automotive sheets surpassed 9 million tons, setting a record.

Will Baosteel double down on 'high-end & smart & green' strategy?

[Photo/Xinhua] Baoshan Iron and Steel Co Ltd, or Baosteel, China's leading steel manufacturer, is optimistic about its financial performance this year, and will double down on its "high-end, smart, and green" strategy to cater to rising demand from electric vehicle manufacturers, a senior executive said.

Where is Baosteel factory located?

Will 2024 be the first year for Baosteel's AI strategy?

"We have positioned 2024 as the first year for Baosteel to promote its AI strategy," said Bao. On April 26, the company signed a cooperation agreement with Huawei, and launched its computing center. "We will rely on cloud computing and the new generation of AI technology to boost the transformation and implementation of AI," said Bao.

A strip of land usually about 10 to 50 meter wide containing the pipeline is known as the pipeline right-of-way (ROW). The ROW enables workers to gain access for inspection, maintenance, testing or emergencies. ... Pipe ...

John Cockerill and Baoshan Iron & Steel Co., Ltd. have once again teamed up to present their "2*20m/h Fluidized Bed Acid Regeneration" project. The initiative signifies a significant milestone in the partnership ...

Choose Baosteel Photovoltaic for the pipeline corridor support

Baosteel gold sun demonstration projects for the 2012, the total installed capacity of 50 MWp. It is installed in the premises of baosteel, hot and cold rolled silicon steel 13 production unit on the ...

CISDI has put Step 1 of phase II of Baosteel Zhanjiang Steel's photovoltaic power generation on-grid, with full capacity. It is the first distributed PV power generation project in China's steel ...

The integrated energy corridor can support the rapid development of new-energy assets and the low-carbon transition of CE. ... photovoltaic auction price in 2020 and the lowest price feasible in ...

In order to successfully achieve the carbon reduction target, in addition to the promotion of technical research and development, Baosteel has also vigorously increased the ...
