

Construction site solar temporary light bracket

What is a solar light tower?

Solight solar light towers are built to perform in every environment. From construction sites to mining camps, Solight provides reliable, bright lighting without the fuel cost and maintenance of diesel. Whether your need for lighting and security is temporary or long-term, Solight manufactures portable light towers to fit your needs.

What is a mobile solar lighting tower?

The Mobile Solar Lighting Tower comes in a variety of configurations to meet your site lighting, temporary construction lighting or construction site lighting plans. Because these portable construction lights are powered by the sun, they run completely silent and create no vibration.

What is commercial solar powered portable lighting?

Commercial solar powered portable lighting is an efficient way to drastically decrease electricity bills. Our 100% off-grid system helps you save big money as it does not require trenching and has low maintenance costs for temporary construction lighting. Greenshine has more than 30 years of experience in offering portable led light towers.

Are solar light towers a good option for construction sites?

Many construction sites use diesel light towers which require daily maintenance and thousands of dollars in fuel. Solar light towers are a clean, cheaper option for construction site lights. LEARN MORE Solar light towers with cameras give you the opportunity to offer 24/7 surveillance on any site because the tower is always charged.

What is a Porta solar light?

The Porta, developed by Greenshine's innovative team, is a 100% solar-powered portable lighting system in the commercial lighting industry. The Porta series of solar lights are perfect for a variety of use cases, such as lighting a temporary parking lot at a music or sporting event, or lighting up city streets.
