

# Current market situation of photovoltaic inverters

Why is the PV inverter market growing?

Increased global PV demand: The increased global demand for photovoltaic (PV) systems presents a massive opportunity for the PV inverter market to grow substantially in the coming years.

What is the global PV inverter market size?

The global PV inverter market size was estimated at USD 13.09 billion in 2023 and is expected to expand at a compound annual growth rate (CAGR) of 18.3% from 2024 to 2030.

Which inverter vendors dominated the global photovoltaic market in 2022?

Huawei and Sungrow remained market leaders in 2022, as they have done since 2015, while AISWEI and SOFAR entered the top 10 ranking. The top 10 global photovoltaic (PV) inverter vendors accounted for 86% of the market - an increase of 4% year-over-year, whereas the top 3 players captured 60% of the market share for shipments in 2022.

What is the market share of solar PV inverters in 2023?

According to the Solar Energy Industries Association (SEIA), prices for solar PV installations have fallen 43% over the last 10 years in California, U.S. Based on product, the string PV inverter segment emerged as the leading segment with the maximum revenue share of 47.10% in 2023.

How did the PV inverter market perform in 2022?

Overall, global PV inverter shipments saw 48% growth year-over-year in 2022, with an additional 100 GW shipped from 2021. In 2022, the PV inverter industry saw a renewed increase in shipments as the pandemic-related semiconductor chip shortage improved. Huawei and Sungrow covered 52% of the market cumulatively - an increase from 44% in 2021.

How will the North America solar PV inverter market grow?

North America solar PV inverter market is also expected to grow at a fast pace during the forecast period as the United States is a significant market for various types of PV inverters. The region's growth is further driven by favourable government incentives, increasing awareness of clean energy, and declining solar panel costs.

The PV inverter market size is valued at US\$ 15.28 billion by 2024, from US\$ 41.87 billion in 2021, at a CAGR of 15.5% during the forecast period. PV inverters are critical components in ...

The global PV inverter market is expected to grow at a CAGR of 13.54% during 2022 to 2028. In 2020, Sungrow Power Supply (Sungrow) surpassed Huawei to become the no.1 industry-leading player in the global PV inverter market (24% ...

# Current market situation of photovoltaic inverters

The global solar PV inverter market reached a value of almost USD 8.45 billion in the year 2023. The market is further expected to grow at a CAGR of 5% between 2024 and 2032 and to reach a value of almost USD 13.13 billion by 2032.

PUNE, Oct. 06, 2022 (GLOBE NEWSWIRE) -- "PV Inverter Market" research report focus on overall information that can help to take decisions on current market situation. PV Inverter ...

PV inverters can inject current during a fault, which can alter the fault currents observed by protective devices (PD). The extent of the impact varies depending on the location of the PV inverters. ... In this situation, the ...

Looking at the changes in the global market share of photovoltaic inverters in the past few years, Huawei has firmly occupied the top spot since 2015, and its position is even more stable than ...

The Egypt Solar Photovoltaic (PV) Market is growing at a CAGR of 9.05% over the next 5 years. Egyptian Electricity Holding Company, KarmSolar, Infinity Solar, Cairo Solar, Scatec ASA are ...

The global solar PV inverter market size reached US\$ 8.3 Billion in 2023, Expected to Hit US\$ 12.3 Billion, CAGR of 4.4% during forecast period 2024-2032. ... IMARC"s report offers a ...

PV Inverter Market PV Inverter Market Dublin, May 25, 2023 (GLOBE NEWSWIRE) -- The "PV Inverter Market - Global Outlook & Forecast 2023-2028" report has been added to ...

Photovoltaic (PV) Inverter Market industry report focuses on the current market size, share, trends, and growth. CAGR: 10.03%, Market Size: US\$9.135 billion in 2028. ... As more people ...

Active/reactive power control of photovoltaic grid-tied inverters with peak current limitation and zero active power oscillation during unbalanced voltage sags ISSN 1755-4535 Received on ...

The PV inverter market has grown rapidly in recent years to achieve record global revenue of \$21 billion in 2023. PV inverters convert DC electricity produced by solar modules into AC electricity to be fed into the grid ...
