Are Asian solar panels a good choice?

Asian PV modules are known for high efficiency and often provide very high output, which makes them probably the most popular choice when it comes to wholesale solar panels for sale for systems of a larger scope. However, their warranties for products are lower and quality issues are more frequent in comparison to US and European companies.

Where are Q Cells solar panels made?

Q CELLS solar panels are designed in Germany and manufactured in a modern facility in USA or Korea. These premium modules are known for their robust design and very high efficiency. The Q CELLS Q.PEAK DUO family uses their proprietary half-cut monocrystalline cells using patented passivation technology for even greater efficiency.
