

Direct sales of photovoltaic panels for rental properties

What are the benefits of solar panels on a rental property?

Another benefit of solar panels on a rental property is the increase in property value. Advanced technology such as solar panels can attract more interest, especially from environmentally-conscious renters.

Should you add solar panels to a rental property?

Adding solar panels to a rental property can increase its desirability to prospective renters, which may lead to higher rental value. Tenants are attracted to the lower utility costs associated with solar energy, as well as the environmental benefits of using renewable energy.

How do I choose a solar panel system for my rental property?

Roof Space: The available roof space on your rental property will determine how many solar panels you can fit onto it, which affects the overall capacity of your solar panel system. **Budget:** Your budget plays a significant role in deciding how big or small you want to go with a solar panel system installation.

Is it worth getting solar panels for renters?

Portable solar panels are a good choice for renters since they can be taken with you when you move. They offer some energy storage through solar batteries, which may not provide a large benefit but every effort matters. Solar water heaters are also a great option if your landlord allows it.

Can solar panels be depreciated on a rental property?

Generally, solar panels installed on a rental property can be depreciated as a capital improvement, allowing you to recover some of the installation cost and reduce your tax liability. This is typically done by spreading the cost of the solar panels over their useful life, according to the tax laws in your jurisdiction.

Can you get a solar tax credit on a rental property?

Yes. But, if you do a Google search to try to find out if you can get a tax credit for installing solar panels on a rental property, most of the results will say you can't qualify for the residential solar tax credit with a rental property. And in a way, they're correct.

If you install solar panels on your rental property, you can potentially qualify for a tax credit of up to 30% of the cost of the solar installation. That's a tax credit, which means it's not merely reducing your taxable income, instead it can ...
