

Double clamp photovoltaic panel rack installation

Who is dual rack PV mounting systems?

Dual Rack PV Mounting Systems is an industry leader in 100% code-compliant, watertight solar roof racking solutions. Your company can count on one source for turnkey mounting kits while saving time with our easy installation engineering, which reduces labor cost. Request Sample

Which Racking clamps should I use for Trina Solar racking?

For C structure steel type 1 racking, due to the amount of space inside the racking section, many choices are available including T-shape nuts. Please consult with a Trina Solar engineer before installing with the frameless clamps. Clamps should be connected to the module between 300 and 400 mm from the edge of the module.

Why should you choose dual Rack solar racking systems?

With nationwide availability, affordable price points, and simple installation methods, the Dual Rack line of solar PV mounting systems is a reliable resource for you and your team. Dual Rack PV Mounting Systems is an industry leader in 100% code-compliant, watertight solar roof racking solutions.

How far should a clamp be connected to a PV module?

Clamps should be connected to the module between 300 and 400 mm from the edge of the module. This distance is from the module edge to the middle of the clamp. *Note: Need two support rails below the PV module to make sure the Mechanical load. *Note: The above-described distance is from the module edge to the middle of the clamp.

Can a racking system be used to ground a PV module?

This racking system may be used to ground and/or mount a PV module complying with UL 1703 only when the specific module has been evaluated for grounding and/or mounting in compliance with the included instructions. The system is a non-separately derived system.

How do I install a solar stack module?

Insert the middle clamps and tighten them. Insert the end clamps laterally in the pedestal. The end clamps are attached and then tightened at the height of the module frame. Modules should be installed to the Solar Stack pedestals with the manufacturer approved middle/end clamps.
