

Download the finished product drawings of Chint photovoltaic panels

BIPV, or Building Integrated Photovoltaics, is an effective method for allowing buildings to generate and use solar power without taking away from aesthetics. BIPV will enable buildings ...

2. Efficient distribution circuit configuration. A single standard panel can be installed with 48 circuits. 3. NJZ3.0D intelligent power control system adopted. 4. Maintenance-free. High safety ...

Application: For circuit control, protection, monitoring and power distribution in power distribution system. Standards: IEC 60439 Parameters: Rated voltage: 400V. Rated current: 400-315...
