What are the different types of solar panel agreements & proposals?

There are different types of solar panel agreements and proposals available. The one you use will depend on a few different factors. These factors include whether you lease or buy solar panels and whether the contract is for a home, business, or even a large development. A power purchase agreement or PPA is similar to a solar lease agreement.

What is a solar PPA agreement?

Under a solar PPA agreement, the solar developer retains responsibility for operating and maintaining the solar energy system over the life of the contract. They'll perform annual inspections, repair any damage, and monitor the system to ensure its performance is continually optimized.

Can a provider sell a photovoltaic system to a customer?

WHEREAS, Provider has offered, at his sole cost and expense, to install, maintain, own, replace, repair, and operate a photovoltaic system at one or more of the Property (ies) and to sell Solar Services (as hereafter defined) produced by the solar photovoltaic system to Customer as provided in and subject to the provisions of this Agreement.

What types of electrical plans are included in a PV system?

Electrical Plans, including single-line electrical diagram showing utility interconnection and all devices comprising the PV system, including, but not limited to: PV arrays, combiner boxes, circuit breakers, disconnect switches, inverters, meters, timers, control devices, and other equipment comprising the complete system.

Can a contractor recommend a PV system size?

After the contract award, the Contractor can recommend PV system sizes at their discretion, as long as the total aggregated PV system size is within plus/minus 10% of the original estimate. Certain buildings can be added or subtracted, subject to Governmental approval.

Can a contractor stop a PV system?

The Contractor may be ordered to stop work, or shut the systems down, if unsafe conditions or code violations are noted. The warranty holder or a roofing contractor certified by the roof manufacturer shall inspect the PV systems to ensure the integrity of the installation.
