

Free solar power

Are there any programs offering free solar power?

Quality Conservation is providing the initial outreach and pre-qualification for families such as your own to secure no-cost solar power. This free rooftop solar program is available primarily to single family homeowners located in state designated Disadvantaged Communities (DACs). This program is designed to provide solar to you at no cost.

How do I access free solar power?

Simply put, you cannot get free solar panels from the government. These payment plans are actually solar leases or PPAs, and they're a no-cost upfront option that gives ownership to the solar company or installer. You pay for the electricity the system produces, and you miss out on many of the financial benefits and incentives of renewable energy.

What are the benefits of free solar power?

Renewable solar energy technologies use the energy of light from the sun. The sun provides heat and light every day while it shines on your location and it come to you freely. We use that free solar energy to make water hot and produce electricity.

How can I get free solar panels installed on my home?

This free rooftop solar program is available primarily to single family homeowners located in state designated Disadvantaged Communities (DACs). This program is designed to provide solar to you at no cost. There is no homeowner credit check requirement, nor do you owe any money to Quality Conservation Services or GRID Alternatives.
