

Full size customization of aluminum alloy energy storage box

What are custom aluminum boxes?

Custom aluminum boxes are made in a variety of styles with countless features. You can specify windows, louvers, locks, gaskets, and much more. Aluminum boxes are versatile and can be used as electrical enclosures, mobile cabinets, and storage for tools, among other things. Your design selection is unlimited with KDMfab.

Which alloys are used for custom aluminum boxes?

The most common alloys used for custom aluminum boxes are 6062, 7075, and 3003. You can always contact KDM support to discuss the best alloy for your project. Metal fabrication is the process of making metal pieces by cutting, bending, and shaping the metal.

What are the benefits of custom aluminum boxes?

Custom aluminum boxes offer several benefits due to the material they are made from. Aluminum is a lightweight material, so the boxes fabricated from it are easy to move, carry, and mount--making it a versatile solution for any project. Additionally, aluminum is recyclable, so manufacturing custom aluminum boxes is eco-friendly and affordable in the long run.

Is it eco-friendly to make custom aluminum boxes?

Manufacturing custom aluminum boxes is eco-friendly since aluminum is recyclable. You will be able to recycle or modify your box, easily giving it a second life. Aluminum is also highly weldable, bendable, and ductile, making it easy to machine and customize at any time.

What is the Overland Vehicle Systems 53qt aluminum box storage?

The Overland Vehicle Systems 53QT Aluminum Box Storage is a high-quality, durable storage solution for your adventures. Our Aluminum Boxes are specifically designed to withstand the rigors of off-road travel, camping, and can provide more storage capacity and are lighter than comparable boxes made from other materials.

What are Overland Vehicle Systems aluminum boxes?

The Overland Vehicle Systems Aluminum Boxes are constructed of extra strong alloy aluminum sheeting, making them perfect for storing all your gear on long trips. The lid features a stainless-steel hinge, two lid straps and a polyurethane seal, providing a watertight and dustproof seal.

[16] Due to the advantages of low electrode potential (~ 2.3 V vs. SHE), high specific capacity (2.98 Ah/g), abundant Al resource, and low cost of Al materials [17] [18][19][20], the Al ...
