

What is the global PV inverter market share?

Global PV inverter shipments grew by 56% to 536 gigawatts alternating current (GWac) in 2023, reflecting a strong year for the broader solar industry. The top 10 global PV inverter vendors accounted for 81% of the market, according to Wood Mackenzie's 'Global solar inverter and module-level power electronics market share 2024' report.

Which PV inverter vendors shipped the most in 2022?

Wood Mackenzie said that the top five vendors shipped more than 200 GW (AC) and accounted for 71% of total global PV inverter shipments in 2022, up 8% from 2021. The report notes that for the top vendor of 2022, Huawei, shipments increased by 83%. Ginlong Solis posted growth of 86%.

Why did PV inverter shipments increase in 2022?

The industry saw this renewed increase in shipments as the pandemic-related chip shortage and other supply chain challenges eased in 2022. The top five vendors - Huawei, Sungrow, Ginlong Solis, Growatt, and GoodWe - shipped more than 200 GWac and accounted for 71% of total global PV inverter shipments in 2022, growing 8% from 2021.

Which inverter brands dominate the global market?

Industry leaders Huawei and Sungrow extended their market dominance and retained their first and second positions in the rankings, respectively. Together they captured more than 50% of the global market, largely through the popularity of their utility-scale inverters.

Which inverter brands dominated the inverter market in 2022?

Huawei and Sungrow jumped up three ranks to enter the top 10 ranking, holding the ninth and tenth positions respectively in 2022. Asia Pacific leads inverter market The Asia Pacific (APAC) region held 50% of the global market with a 44% year-over-year growth in shipments, with total shipments to the region reaching 167 GWac.

Which countries have experienced double digit PV inverter market growth?

In comparison, North America and Europe also experienced double-digit PV inverter market growth, but it was largely concentrated in the utility-scale sector as residential inverter manufacturers faced slower demand growth and excess inventory from oversupply beginning in 2022.

These vendors shipped 44 GW of inverters. Overall, global PV inverter shipments saw 48% growth year-over-year in 2022, with an additional 100 GW shipped from 2021. Improvements in chip shortages drives growth

2023 World's Top 20 Global Photovoltaic Inverter Brands Revealed by PVBL. PVTIME - Cohesion of PV brands promotes strong development of technology and services for solar energy and energy storage ...

The top five vendors - Huawei, Sungrow, Ginlong Solis, Growatt, and GoodWe - shipped more than 200 GWac and accounted for 71% of total global PV inverter shipments in 2022, growing 8% from 2021. Huawei's ...

2024 Top 20 Global Photovoltaic Inverter Brands Revealed by PVBL. PVTIME - Renewable energy capacity additions reached a significant milestone in 2023, with an increase of almost 50% to nearly 510GW, mainly ...

The PV inverter market size is valued at US\$ 15.28 billion by 2024, from US\$ 41.87 billion in 2021, at a CAGR of 15.5% during the forecast period. PV inverters are critical components in ...

S&P Global is a leading global information provider and annually publishes rankings for the shipment volume of photovoltaic inverters. Prior to 2011, Chinese companies were not present in the top 10 of this list. ...

Top 20 Global Photovoltaic Inverter Brands for 2023 Announced by PVBL. Century New Energy Network and Photovoltaic Brand Lab (PVBL) held the CPC 8th Century Photovoltaic Conference of 2023 and the PVBL 11th ...

The PV inverter market has grown rapidly in recent years to achieve record global revenue of \$21 billion in 2023. PV inverters convert DC electricity produced by solar modules into AC electricity to b.

Solis Inverter is a global leader in PV inverters, offering comprehensive solar solutions for residential, commercial, and industrial sectors. ... Ginlong Technologies, trading ...

IHS Markit forecasts that global demand for replacement inverters will grow by almost 40% to reach 8.7 GW in 2020. A large and growing installed base of aging PV installations is driving demand for replacement PV ...

Global PV inverter shipments grew by 56% to 536 gigawatts alternating current (GWac) in 2023, reflecting a strong year for the broader solar industry. The top 10 global PV inverter vendors accounted for 81% of the ...

Schneider Electric SE, Siemens AG, Mitsubishi Electric US, Inc., General Electric Company, Huawei Technologies Co., Ltd, FIMER Group, SolarEdge Technologies Inc, and Toshiba International Corporation, among others are ...
