

Good lithium battery energy storage fund

Should you invest in a lithium battery ETF?

An ETF focused on lithium battery tech will provide diversification across the industry, from lithium mining companies to battery manufacturers to EV automakers that integrate the tech into a vehicle. Since lithium batteries used in larger applications are still undergoing rapid development, there are few choices for ETF pure plays in the industry.

What is a lithium & battery technology ETF?

This ETF, as well as competitor Amplify Lithium & Battery Technology ETF (BATT), offer further diversification by including battery and electric vehicle exposure along with pure-play lithium stocks. LIT tracks the Solactive Global Lithium Index and includes Albermarle, along with EV players like Tesla Inc. (TSLA) and BYD Co. Ltd. (1211.HK).

What is the Global X lithium & battery tech ETF (lit)?

The Global X Lithium & Battery Tech ETF (LIT) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive Global Lithium Index. Performance is shown on a total return basis (i.e., with gross income reinvested, where applicable).

Is investing in lithium ETFs a good idea?

Lithium batteries are becoming increasingly relevant as the globe moves toward an electrically driven future. An investment in lithium ETFs could be a good idea as they could energize your portfolio in the next decade. But which are the best lithium ETFs to buy now? Let's have a look!

What is amplify lithium & battery technology ETF?

The Amplify Lithium & Battery Technology ETF is the second pure-play lithium battery ETF available in the U.S. At just 0.59% per year, it has an even lower expense ratio than Global X's offering. The fund is made up of 90 stocks, so it also covers more ground. But more stocks and lower expenses have not equated to better investor returns.

Is investing in LIT a good decision?

The Global X Lithium & Battery Tech ETF (LIT) is one of the largest in its class, managing nearly \$4 billion in net assets. It charges investors an ETF expense ratio of 0.75%. LIT offers investors a broad scope of the lithium battery industry by investing in the entire business cycle, with 40 holdings.

The Global X Lithium & Battery Tech ETF (ticker: LIT) gained more than 20% in September. The fund remains down by 3.3% year to date as of Oct. 7, while the S&P 500 is up by 19.4% during the...
