

# GoodWe PV Inverter DNS

What is a goodwe DNS series solar inverter?

GoodWe DNS series is 3-6KW single phase on-grid solar inverter with compact size and light weight. Ideal for residential housing solar energy storage projects. Click to learn more about GoodWe DNS series now to provide greater options for household energy storage system.

What is a goodwe DNS G3 Series inverter?

The GoodWe DNS G3 series inverter is specially designed for single-phase residential applications. Integrated with high-current input and DC input oversizing capabilities, the series can bring you optimized power generation and make substantial returns.

Are goodwe DNS inverters IP65 rated?

Manufactured for durability and longevity under modern industrial standards, GoodWe DNS series is IP65 rated so it can be mounted either inside or outside your home. With a low start-up voltage of only 80V and the widest MPPT voltage range of 80-550 V, these inverters can provide greater options for your household system.

What is goodwe DNS G3 Series?

New District, Suzhou, 215011, China GoodWe DNS G3 series is a 3-6KW single phase on-grid solar inverter with compact size and light weight. Ideal for residential housing solar energy storage.

Why should you choose a goodwe DNS inverter?

The GoodWe DNS series is also 30% lighter than other inverters in its class, making installation more convenient. Control the amount of power exported to the grid up to zero output, in compliance with your electricity utility's requirements.

Who is goodwe solar inverter manufacturer?

No. 90 Zijin Rd., New District, Suzhou, 215011, China GoodWe is a leading solar inverter manufacturer specializing in residential and commercial solar inverters ranging from 0.7kW to 250kW.
