

What is a goodwe XS solar inverter?

The brand new XS model from GoodWe is an ultra-small residential solar inverter ranging from 0.7kW to 3.0kW. It is specifically designed to bring comfort and quiet operation as well as high efficiency to households. With a fascia size equivalent to a sheet of A4 paper and a weight of just 5.8kg, installation is not be more convenient.

Does goodwe offer a solar inverter?

GoodWe also offers a unique feature: hybrid string inverters. These inverters can charge a solar battery and use solar energy as it's created, providing a versatile and efficient solution for your solar power needs. Micro-inverters are usually more expensive and provide a small inverter for each solar panel.

Who makes goodwe inverter?

This GoodWe inverter review is performed independently by Solar Choice and has no affiliation with GoodWe. Jiangsu GoodWe Power Supply Technology Co Ltd, founded in 2010 in Suzhou, China, quickly made a mark in the solar energy industry. Just two years later, in 2012, they expanded to Australia, opening a Melbourne office.

How efficient is a goodwe inverter?

Residential inverter efficiency standards are generally 95 to 98 per cent, GoodWe inverters meet these standards. The least efficient GoodWe inverter is the NS Series 1kW which still records a 96.5% max efficiency. Besides from this one inverter all GoodWe inverters have at least 97% max efficiency.

What is a goodwe DNS series solar inverter?

GoodWe DNS series is a 3-6KW single phase on-grid solar inverter with compact size and light weight. Ideal for residential housing solar energy storage.

What is a goodwe string inverter?

GoodWe's string inverters comprise most of their product line and are the traditional choice in the solar industry. They channel the power from solar panels to a central inverter, which converts it from DC to AC electricity that powers homes. GoodWe also offers a unique feature: hybrid string inverters.

The brand new XS model from GoodWe is an ultra-small residential solar inverter ranging from 0.7kW to 3.0kW. It is specifically designed to bring comfort and quiet operation as well as high efficiency to households. With a fascia size ...
