On June 5, the stock of CHN Energy Guodian Power Development Co., Ltd. closed at 5.71 yuan per share, reaching a recent high. Its market value hit 101.8 billion yuan, breaking the 100-billion-yuan threshold.

What is CHN energy Guodian power?

CHN Energy Guodian Power is committed to further establishing an open, honest, and transparent image in the capital market, enhancing investors' recognition of the company's intrinsic value, and vigorously advancing the construction of a world-class energy company.

What happened to China Guodian & China Shenhua?

Formerly the largest power group in China, the firm has dropped to "second place" after two of its former competitors China Guodian, and China Shenhua merged in 2018. Since then, the firm--previously focused on developing clean coal and a leader in the field--has been seeking to catch up in other new energy areas.

How will China's energy storage capacity grow in 2023?

Ahead and heading into a new era for new energy, it is expected that China's energy storage capacity and its BESS capacity in particular will grow at a CAGR rate of 44% between 2023 and 2027. Finally, BESS development financing globally thus far has stemmed from various sources: funds, corporate funds, institutional investors, or bank financing.

Will Chinese energy companies invest in green hydrogen?

Chinese energy companies recently show growing appetites for green hydrogen project investments. A collective mindset change has occurred among the energy giants comes after Beijing's series policy measure to kick start the country's hydrogen and fuel cell development.

How does China's decarbonization policy affect energy storage?

China's decarbonization policy has already created pressure on state-owned enterprises mandating energy storage with the order to build renewables-plus-storage projects introduced for the very first time by the NEA last April.
