

Hikvision camera solar power generation

Is Hikvision a solar-powered product?

Hikvision's solar-powered product family continues to grow, adding multiple functions and formats - even kits you can design yourself for your unique application. The new-generation solar-powered products provide flexible viewing angles, simple deployment, and reliable performance for virtually limitless scenarios.

What is the Hikvision solar-powered security camera setup?

To help remote operations to boost their security, Hikvision has created the Solar-powered Security Camera Setup. This solution uses a 40 Watt photovoltaic panel and a highly durable 20 Ah rechargeable Lithium battery to power a Hikvision EXIR Fixed Bullet Solar Power 4G Network Camera .

Why should you choose Hikvision's solar-powered cameras?

With Hikvision's solar-powered cameras, you can enjoy a streamlined deployment process that saves time and effort. By consolidating the components, these cameras provide a convenient and efficient solution, making it easier than ever to establish a robust security system.

What is Hikvision's new 4G solar panel kit?

Hikvision has launched a new 4G Solar Panel Kit for Standalone Security Sites in the UK & Ireland (17th December 2020). This innovation revolutionizes the protection of remote assets in hard to reach places by providing a security camera that runs on solar power.

What are the new models of Hikvision cameras?

This kit contains the all-new 4MP ColorVu series of cameras from Hikvision. These new cameras from Hikvision offer warning lights and alarms, with the ability to engage the speaker and microphone manually for 2 way conversations via mobile app, as well as the Acusense technology for reduced false alarms.

How much power does a Hikvision camera use?

Hikvision recommend PoE (802.3af) for their non PTZ cameras. Most Cameras draw between 4.5 and 9 Watts which is well within the 15.4 watts pf the 802.af specification. As that POE injector is 802.af compliant it should be fine. I did this with my first Hikvision camera before I got a PoE switch. Worked perfectly well.

To enhance security in remote or costly-to-wire areas, we've released two new groundbreaking solar-powered camera kits to our solar lineup: the 4 MP Motorized Varifocal Bullet Solar Wireless Camera Kit and the 4 MP ...

Isolated areas and temporary, standalone applications often do not have electricity and internet connectivity. To help keep these places safe in a simple, practical, and cost-effective way, ...
