

How long can the TV cabinet platform store

How to store a TV long-term?

If you're looking for long-term storage solution and want to keep your television in good condition, a climate-controlled storage unit is the better option. Storing with Shield Storage guarantees you a safe and secured storage unit. Reserve a storage unit today with Shield Storage. There are several things to consider when storing a TV long-term.

Is it safe to store a TV in a storage unit?

Yes, it is safe to store a TV in a storage unit as long as it is properly protected and secured. Make sure to wrap the TV in a soft cloth or blanket to prevent scratches and damage during transportation and storage. Q What is the best way to prepare a TV for storage?

Should I store my TV in a climate-controlled storage unit?

With a regulated storage unit, you don't have to worry about humidity and temperature damaging the inner parts and circuits of your TV. Storing your television in a climate-controlled self storage unit will prolong the functionality of your TV despite being stored for a long time.

Should you store a flat screen TV in a self storage unit?

When storing a flat screen TV, climate control is the number one self storage feature you shouldn't skip. Always store the TV upright, both during transportation and inside the storage unit.

How do you store a TV if you move it?

Don't let anything happen to your TV when moving it to your storage facility. Put it upright to prevent any damage. Laying the TV sideways for a long time can damage the screen and the internal parts. Store your item in a climate-controlled storage unit if you want it to be safe from bad weather patterns.

How to choose a TV storage facility?

Look for a storage facility that offers climate-controlled units. These units maintain a consistent temperature and humidity level, protecting your TV from potential damage caused by temperature fluctuations, moisture, or mold growth. Ensuring the security of your stored TV is crucial for peace of mind.
