Is a Tesla Solar Roof worth the price?

The bottom line is that the Tesla Solar Roof is more expensive than a regular roof and is also more expensive than a traditional solar panel system combined with a new roof. But, there are several factors to consider when deciding if the Tesla Solar Roof is worth the price. First, you must decide if you want to own or lease your solar system.

Does Tesla have a solar roof?

Aside from its solar panels, Tesla offers a solar battery (the Powerwall) and a solar roof. The Tesla solar roof comprises sleek, modern solar shingles that mimic the look of regular shingles. These shingles act as tiny solar panels that replace your current roof, allowing you to prioritize aesthetics and ensure your home matches your preferences.

How much electricity does a Tesla Solar Roof produce?

The solar inverter, Mid-Circuit Interrupter (MCI), and Powerwall come with a 10-year warranty. How much electricity (kWh) does a Tesla Solar Roof produce? A Tesla Solar Roof produces 5 kW to 23 kW or more of electricity, depending on the roof size, system size, sun exposure, and weather.

Does Tesla install solar?

Furthermore, Tesla has been winding down its solar installation business for years now and some customers are noting having more difficulties accessing service. Tesla also simply doesn't install solar in some regions of the US. If you're in the market for a new roof and solar energy system, the Tesla Solar Roof is another option to consider.

Does Tesla sell Powerwalls?

Many Tesla Solar customers love the Tesla app to track their solar production, energy consumption, and Powerwall status. However, competitors all have similar apps and Tesla is also now selling Powerwalls and solar inverters to other solar installers, which enables their customers to also have access to these features.

Should you buy a solar system from Tesla?

Outright buying the system from Tesla is ideal to optimize saving over time, but if you don't want to have to take a loan or have a big upfront cost, you can also use Tesla's solar subscription service starting at just \$50 per month: You are going to start saving on electricity bills right away with no upfront cost.
