

# How to deal with being cheated when installing photovoltaic panels

How do I avoid solar panel scams?

Getting multiple quotes and thoroughly vetting installers is the best way to avoid solar panel scams. You can also use solar.com to compare quotes from our network of thoroughly vetted installers.

How do I avoid a crappy solar panel deal?

To avoid a crappy solar panel deal, watch out for these scammy sales tactics. Dealing with door-to-door salespeople is annoying, no matter what they're selling. But the solar industry is full of bad actors, with solar salespeople knocking at your door with misleading offers and overpromised savings.

Are free solar panels a scam?

Free solar panels are indeed a scam. This deceptive marketing tactic is often used to promote solar leases and power purchase agreements (PPAs), which come with long contracts and monthly payments that escalate over time.

Is there a fee for a solar panel consultation?

There is no charge for a solar panel consultation. If you have a case, the solar company, not the consumer, will pay any legal fees.

Are you getting ripped off when buying solar panels?

Solar is expensive, no matter how you shake it. And savings sound nice, but if you get stuck with an overpriced solar panel system that's underperforming, you're going to save much less. That's why we put together these tips to avoid getting ripped off when buying solar panels -- backed by expert advice.

How do I avoid a bad solar deal?

After arming yourself with knowledge about how solar works, the very best way to avoid a bad deal is to get multiple solar quotes and compare them. Use what you've learned to compare the solar quotes, and also use the information each company gives you. You might find that one installer will include information that another does not.
