

How to follow the power grid on WeChat

What is power grid frequency?

The term 'power grid frequency' (also known as 'grid frequency') describes the rate at which an electrical grid's alternating current (AC) power supply changes the direction. Grid frequency, which is typically represented in Hertz (Hz), is a technical term that refers to the number of times the alternation cycle happens per second.

How do I float on a WeChat page?

If this is you, you have been missing out on the easy way out. Wechat's floating window allows users to store and revisit their progress on other pages opened through WeChat. Just click on the three dots on the top right corner of whatever page you are on and choose 'floating' to do so.

What is a floating window on WeChat?

Wechat's floating window allows users to store and revisit their progress on other pages opened through WeChat. Just click on the three dots on the top right corner of whatever page you are on and choose 'floating' to do so. However, only a maximum of 5 floating windows are allowed at once.

How to post a moment on WeChat?

Apart from messaging, WeChat also combined social elements similar to Facebook. You can share posts known as 'moments' or comment and like others' posts in the Wechat friends' circle. To post a moment, go to the 'Discover' page and click into 'Moments'.

How to create a list on WeChat?

Another less known function of WeChat is the list creator. It comes in handy when you wish to collate information from a group, for instance, gauging the attendance of a particular event or buying milk tea for an entire department. Simply type '# ji? lóng' in the text box and select 'Group Note' to start a list.

What is a WeChat group?

This is known as "face to face group formation" (miàn duì miàn jiàn qún) to the Chinese. It is a good way to grow your network as you can always reach out to individuals whom you did not have a chance to talk to after an event, so long as a WeChat group is set up during the event.
