

How to install Tianfeng solar bracket

How do I install rigid solar panels on my roof?

EcoFlow's rigid solar panels come with a EcoFlow Tilt Mount Bracket for easy rooftop installation. The components include four fixing brackets, two adjustable brackets, and screws. This should be all you need to mount rigid solar panels on the roof or any other flat surface on your home that receives direct sunlight.

How do you install a solar panel bracket?

The end brackets will have a spot to hold a single panel, and the middle brackets will have a spot to secure two panels. Some solar panel kits may use single panel brackets. The basic is to position the bracket to capture the panel and then tighten the bolt that clamps the bracket to the panel.

Why should you install a solar panel bracket?

The purpose of installing the bracket is to better fix the solar panel. If there is a more convenient and feasible method to fix the solar panel, PVMars will definitely recommend it to you, and effective solutions are based on solar panels' characteristics and your on-site installation environment.

How do I Mount my solar panels?

Depending on various factors, your solar panel mounting process might differ slightly. For this guide, we use the EcoFlow Tilt Mount Bracket for EcoFlow 400W Rigid Solar Panel as an example. Make sure to consult your equipment manuals before proceeding to install your panels.

What is a two-piece solar panel mounting bracket?

In retrospect, a two-piece solar panel mounting bracket would be much easier to deal with. One piece mounts to the panel, the other piece mounts to the roof and the two pieces are bolted or screwed together. This would also make it easy to remove the panel for maintenance or replacement. One more picture.

How to install a solar panel?

The first step is to attach the fixing bracket to the solar panel. Lay the solar panel face-down on the tarp or canvas to protect the photovoltaic surface. You want to be sure the mounting holes on the back of the panel align with the holes in the fixing bracket. Don't modify the module frame because doing so may void your manufacturer's warranty.
