

How to open a lockable locker

How do you open a locker lock?

Now you can open the lock by pulling the shackle. If, after following the procedure, the locker lock still won't open, don't panic. Start over from the beginning with three spins to the right and "clear" the lock. If, after re-entering the right combination, the locker resists to open, it means that it could be jammed.

How do I open a lock?

Pull up on the U-shaped lock to open it. Once you've successfully input your combination the lock should easily come off. To review: Spin the dial 3 times clockwise, landing on your first number. Spin the dial counterclockwise 1 full rotation before landing on your second number. Spin the dial clockwise to your final number. Open the lock.

How do you open a school locker?

See Step 1 to begin learning how to open 99% of all standard school lockers. (Note: some locks may open differently) Spin the dial at least three times to the right (clockwise), all the way around. This clears the lock of any previous numbers. If at any point in putting in your combination you mess up, do this again to start over.

How do I reopen a locker?

Find an available locker: Use the operation knob to open the locker door and put your belongings away. Scramble: After locking your restable combination lock scramble the (4) dials to secure your belonging and keep the lock closed. Reopening the lock: Use the same unique (4) dial combination to reopen the lock and retrieve your belongings.

How do you open a combination lock?

To open one, simply turn each dial to create the correct combination. For example, if the combination is 1492, turn the first dial to 1, the second to 4, the third to 9, and the last to 2. The first number is almost always on the dial closest to the lock. Know that you can cut down the number of tries needed to guess a combination lock.

How do you fix a locked locker?

Start over from the beginning with three spins to the right and "clear" the lock. If, after re-entering the right combination, the locker resists to open, it means that it could be jammed. Try pushing and pulling a bit, sometimes this maneuver is enough to make it work. If not, just ask someone (a teacher, a friend or the janitor) for help.
