

How to pack and ship Tongwei photovoltaic panels

How do you pack a solar panel for shipping?

To pack a solar panel for shipping, it is essential to follow these steps: Ensure the panel is clean and free from any debris or loose components. Place the panel in a sturdy and appropriately sized packaging box or crate. Provide cushioning around the panel using foam inserts, bubble wrap, or custom-fit padding to protect it from impacts.

How do I choose the best solar panel packaging?

Consider the following factors when choosing solar panel packaging: **Durability:** Opt for packaging materials that are strong, sturdy, and capable of withstanding external forces. Reinforced cardboard or corrugated boxes are commonly used for solar panel packaging due to their durability and resistance to compression.

How do you pack solar panels horizontally?

When solar panels are packed horizontally, unpacking the pallet is straightforward: cut the safety ribbons and take panels from the pallet one by one. Some manufacturers pack the panels horizontally though. In this case, if you just remove the ribbons, the stack may just fall.
