

How to pry open student lockers

How do you open a school locker?

See Step 1 to begin learning how to open 99% of all standard school lockers. (Note: some locks may open differently) Spin the dial at least three times to the right (clockwise), all the way around. This clears the lock of any previous numbers. If at any point in putting in your combination you mess up, do this again to start over.

How do you open a locker?

To open your locker, start by spinning the dial clockwise, or to the right, at least 3 full turns to clear the dial from any other numbers. Then, turn the dial to the right and stop at the first number in your combination. After you have stopped at your first number, turn the dial to the left past "0" and stop on your second number.

What happens if a school locker is jammed?

A jammed locker is a nuisance and a time stealer, but you don't need to make yourself late. Most jams come from books, packages, and other things pressing against the lock. Knocking that item free is often enough to open up the average school locker. If your locker has a key lock, clean it before attempting to force it open.

Why can't I open my school locker?

Most jams come from books, packages, and other things pressing against the lock. Knocking that item free is often enough to open up the average school locker. If your locker has a key lock, clean it before attempting to force it open. If you still can't open it yourself, call for help to retrieve what you left inside of the locker.

How do I get a stuck locker open?

Call a service line if you're renting the locker. Some universities, jobs, and delivery services maintain lockers, for instance. You can usually get a stuck locker open by calling the person who assigned the locker to you. It's the equivalent of calling a janitor to deal with a bad school locker.

Is my school locker a "borrowed" locker?

Before we begin, remember that although the school or gym locker is yours to use, it is on a "borrowed" basis.

Jammed doors can be resolved by prying in some instances. Older, aluminum tracks wear out. When the door jumps off the worn track, a screwdriver placed between the track and the bottom of the door can be used ...
