

Industrial Photovoltaic Panel Tender Announcement

Why are solar photovoltaic (PV) tenders becoming more popular?

Protecting the environment and developing the green economy is becoming a focus for businesses and property owners as well as utilities and governments. This is driving an increase in the number of solar photovoltaic (PV) tenders being issued to award contracts for project construction and maintenance.

Where can I find solar tenders?

A good starting point is Solar Tenders Worldwide, a subscription service that lists live government tenders related to solar projects. In Europe, public sector tenders over a certain value (EUR428,000 for energy) must be published in the Official Journal of the European Union (OJEU).

What is the solar roof tender?

The SolarRoof tender was launched last Tuesday, is expected to close on Aug 18, and is slated to be awarded in December. It seeks to mitigate some of the challenges companies face in switching to cleaner sources of energy, such as a lack of understanding of solar deployment models and legal and procurement processes.

How many MW was awarded in a solar-plus-storage tender?

As usual, the solar tender was significantly oversubscribed, luring 98 proposals of 493 MW in total, against a target of 100 MW. The awarded capacity was 100.55 MW, coming from 18 projects. The bid price ranged between EUR 0.0355/kWh and EUR 0.0521/kWh. January 2020, 609 MW awarded in 2nd solar-plus-storage tender.

Will JTC help industrial landlords adopt solar energy?

21 Jul 2020 - Industrial landlord JTC Corporation has launched a tender to help companies adopt solar energy and make its industrial estates more environmentally friendly. This initiative aims to fast-track solar power adoption on the rooftops of 50 JTC buildings as well as those of JTC's lessees, spanning about 18ha.

What is a solar & wind procurement exercise?

The procurement exercise will be the country's second attempt to support large-scale solar and wind under the current auction scheme that plans to assign 2.26GW of renewable energy capacity to drive renewable growth in the power mix.
