

How do you mount a solar panel racking system?

Space the rails to match the distance between the mounting holes on the back of the solar panel. Your racking report has the exact measurements. The Ironridge Ground Mount system uses a rail connector bracket which attaches the rails to the horizontal support pipes using U-bolts.

How do I install a solar stack module?

Insert the middle clamps and tighten them. Insert the end clamps laterally in the pedestal. The end clamps are attached and then tightened at the height of the module frame. Modules should be installed to the Solar Stack pedestals with the manufacturer approved middle/end clamps.

How do I connect a solar stack module to a pedestal?

Modules should be bonded to the Solar Stack pedestals with the manufacturer approved middle/end clamps. Grounding hardware (as a part of the module clamps) forms secure electrical bonds with both the module and the pedestal, resulting in many parallel grounding paths throughout the system.

How do you ground mount solar panels?

Place the next panel on the rails, so that the clamps are wedged snugly between both panels. Tighten the clamps between the panels. Repeat this process for each panel in your array. Use the UFO with stopper sleeves attachment to secure the final panel in the row. If you decide instead to ground mount your solar panels, there are 3 key steps:

How do you plan a solar panel array?

Start by marking out the bounds of the solar panel array from your plans. The plans will provide you with measurements from your roofline and/or vent pipes that will help you to mark out the panel locations. Use your tape measure and chalk or the line snapper to mark out the rectangles that represent where your panels will end up.

Who should install a solar panel?

All electrical installation and procedures should be conducted by a licensed electrician or solar contractor. Routine maintenance of a module or panel shall not involve breaking or disturbing the bonding path of the system. All work must comply with national, state and local installation procedures, product and safety standards.
