

# Install solar power for free

Are solar panels free?

The Department of Energy is aware of claims of offers for free solar panels or that solar companies must provide solar panels for free if requested. However, the federal government does not offer any programs for free home solar panel installations nor does the government require companies to grant solar panels for free to customers.

Do low-income solar programs offer free solar panels?

Low-income solar programs don't typically provide completely free solar panels, but they can greatly reduce installation costs. Most of the programs provide rebates or grants to cover the majority of rooftop solar installation costs for qualified applicants, but there may still be some costs or payments required.

What is a "free solar panels" program?

Typically, "free solar panels" programs refer to solar leases, PPAs or government programs for low-income households. Here we will discuss the third one: How to get free solar panels from the government in 2024.

How do you pay for solar panels?

Federal tax credits, state rebates, and local incentives are common ways to offset the costs. In solar panel leasing programs, companies install solar panels on your property, and you lease the system. You typically pay a fixed monthly amount, which is often lower than your previous electricity bill.

Does the Department of energy offer free solar panels?
