

Is it legal to install photovoltaic panels on the patio

Is installing solar panels illegal in any state?

Technically, no state outlaws or bans solar panels; quite the opposite. Most states have solar access laws that forbid any agreement, covenant, condition, bylaw, or contract that outlaws or limits solar installations by Homeowners Associations (HOA) or other municipal bodies.

Can solar panels be installed on a patio?

Yes, solar panels can be installed on a patio. Typically, you would want to use the awning or roof of your patio for solar panels because it's extra space that can be utilized for solar energy. Most patios are off the backdoor and get plenty of sunlight during daylight hours, making them a great location for solar panels.

Do you need a permit to install solar panels?

Generally, local governments require a homeowner's solar installer/contractor to obtain a permit for rooftop panels before they can be installed. After the PV system is installed, a professional from the local government will inspect the new array to ensure all building, electrical, and safety codes have been followed.

Which states do not require a permit to install solar panels?

Which States Does Not Require a Permit? There are a few states that do not require a permit to install solar panels. These states include Arizona, Colorado, Delaware, Idaho, Indiana, Iowa, Kentucky, Louisiana, Maine, Michigan, Mississippi, Montana and many more.

Are solar access laws illegal?

With that being said, unpermitted systems are illegal to operate in many American jurisdictions, even in states with solar access laws. What is the difference between solar access laws and solar easement laws?

Are solar panels a viable option?

However, some states still make installing solar panels functionally impossible by creating laws with "reasonable restrictions," such as increased taxing, energy caps, or even billing solar panel users. Combine these laws with a lack of incentive programs, and solar panels are not viable for homeowners in many states.
