

# JA Solar Photovoltaic Panel Factory

Where is JA Solar based?

PHOENIX, AZ (January 10, 2023) -- JA Solar, a global solar cell and module manufacturing leader, announced today it has leased space for its first manufacturing facility in the U.S. in Phoenix, Arizona. The new facility will produce high-performance photovoltaic (PV) products, and is expected to be operational by Q4 2023, creating over 600 new jobs.

Will JA Solar build a 2 GW solar plant in Arizona?

China's JA Solar has announced plans to invest CNY 408 million (\$60.5 million) in the construction of a 2 GW PV panel factory in the US state of Arizona. The solar cell and module maker said in a statement that it has already leased land for the manufacturing facility at an unspecified location in Phoenix.

What types of PV power plants does JA Solar offer?

At JA Solar we specialize in multi-form photovoltaic (PV) power plants, including conventional centralized PV power plants, Agri Voltaics, Floating Solar PV power plants, and other forms.

Will JA Solar manufacture solar panels in Phoenix?

"We are grateful JA Solar will manufacture its high-efficiency solar panels in Phoenix, enhancing Arizona's renewable energy industry." Once operational, JA Solar's Phoenix facility will be the largest manufacturing site of solar/PV products in Arizona with a capacity of 2 gigawatts.

What is JA Solar doing in Arizona?

Chinese solar cell and module manufacturer JA Solar announced via the Arizona Commerce Authority that it intends to open a 2-GW solar panel assembly plant in Phoenix by the fourth quarter of 2023. The company will invest \$60 million into a new manufacturing site and create 600 jobs.

When will JA Solar start commercial operations?

JA Solar's new manufacturing facility is expected to start commercial operations in the fourth quarter of this year. China's JA Solar has announced plans to invest CNY 408 million (\$60.5 million) in the construction of a 2 GW PV panel factory in the US state of Arizona.

Chinese solar cell and module manufacturer JA Solar announced via the Arizona Commerce Authority that it intends to open a 2-GW solar panel assembly plant in Phoenix by the fourth quarter of 2023. The ...

While some concentrating solar-thermal manufacturing exists, most solar manufacturing in the United States is related to photovoltaic (PV) systems. Those systems are comprised of PV modules, racking and wiring, power electronics, ...
