

# Jinke Photovoltaic Panel Ranking

Are Jinko Solar panels good?

Jinko Solar is an excellent solar manufacturer that has earned its place as one of the biggest in the business. Its high-quality panels perform well and come with great warranties. You're unlikely to have any problems with your panels; not only is solar panel failure rare, but Jinko Solar panels are as reliable as they come.

Who makes Jinko Solar panels?

Jinko, founded in 2006, is a solar panel manufacturer. On this page, you can find a complete list of solar panels from Jinko and compare models side-by-side. Quick facts about Jinko solar panels in the EnergySage Buyer's Guide: Are Jinko solar panels best for you? How to choose the right solar panels for your needs

Is Jinko Solar Cheetah 345W a good solar panel?

While the Jinko Solar Cheetah's five-busbar technology was ahead of its time when the panel was released and is still good, Jinko Solar's Tiger Neo has 16 busbars and Q Cell's Q.PEAK duo has 12. Though the Jinko Solar Cheetah 345W has a low power output, its efficiency is still above average at 20.45 per cent.

How long will Jinko Solar be around?

Based on Jinko Solar's huge size and profitability, we expect it to be around for many years; the same can't be said for many of its competitors. Finally, there is the ever-important matter of cost: Jinko Solar's panels are much cheaper than the priciest brands.

Are Jinko Solar batteries safe?

All Jinko battery systems are built using lithium Ferro phosphate (LFP) cell technology which is safer and generally offers a longer cycle life than other lithium battery chemistries. Jinko Solar did not become the world's largest solar panel producer purely by luck.

What is the temperature coefficient of Jinko Solar panels?

Jinko Solar panels have temperature coefficients ranging from -0.39 to -0.35. Whether you're buying a TV, a car, or solar panels, the manufacturer should stand behind their product with a strong warranty.
