

Job responsibilities for energy storage container assembly

Why do we need a new energy storage training program?

As we rapidly increase the scale of our manufacturing operations, we're looking for skilled workers interested in receiving the additional training to build clean energy storage systems that will power homes and businesses in their own communities and around the globe. Charge the future with your forward-thinking ideas.

What makes the energy storage industry so interesting?

The energy storage industry is still fairly young compared to others like wind or solar. This means it's rapidly growing, changing and innovating (part of what makes working in the industry so interesting).

What makes field a great energy storage company?

The energy storage industry is no exception. At Field, they are the glue that holds us together - whether that's by bringing new talent into the business, negotiating contracts or ensuring we have a strong balance sheet. They're absolutely essential to the Field business, enabling us to do the work we do.

Why do energy storage companies need a strong finance team?

Regardless of which sector they're working in, businesses need strong finance, legal and people teams. The energy storage industry is no exception. At Field, they are the glue that holds us together - whether that's by bringing new talent into the business, negotiating contracts or ensuring we have a strong balance sheet.
