

Jolywood Photovoltaic Panel Wholesale

Who is Jolywood Solar?

In 2016, Jolywood Solar was established as a subsidiary of Jolywood Group to manufacture and distribute solar panels. Jolywood Solar has shipped over 5GW of solar panels across 50 countries and has a reported solar panel production capacity of 6.6GW.

Are Jolywood solar panels efficient?

Jolywood's NIWA series ranges from 415W to 435W in capacity with an impressive maximum efficiency rating of 22.27%. This puts them up there with some of the most efficient solar panels available on the Australian market. The solar panels feature Jolywood's J-TOPCon 2.0 technology.

Are Jolywood solar panels re-launched in Australia?

The below project was a 2,270 kW rooftop installation in Taizhou, China across an install area of 25,000 m². Our experts take a look at the Jolywood solar panels which were re-launched in the Australia market in 2023. Should you buy them?

What makes Jolywood a leader in photovoltaic technology?

In an increasingly prosperous photovoltaic market, products are competing for leadership. With its excellent product quality management and control ability, allied to testing and R&D strength, Jolywood stands out with its high efficiency, reliable N-type TOPCon solar modules and has established itself as a leader in this area of technology.

Are Jolywood solar panels dated?

Jolywood has a few commercial and industrial case studies on their website which look a little bit dated. The below project was a 2,270 kW rooftop installation in Taizhou, China across an install area of 25,000 m². Our experts take a look at the Jolywood solar panels which were re-launched in the Australia market in 2023.

What is the difference between Jolywood and Topcon solar cells?

Compared to P-type solar cells, TOPCon cells have longer lifetime, lower degradation and higher potential of efficiency. Jolywood has delivered more than 4.1GW N-Type solar modules in more than 50 countries.
