If you're after a basic shoe rack with good capacity, look no further. This option is available in three- and four-tier sizes, which can hold 24 or 30 shoes, respectively, with enough for overflow.

How many pairs of shoes can a shoe organizer hold?

In our testing, we found it had enough space for about eight pairs of shoes when utilizing the space on the floor underneath the bottom shelf. You can also purchase additional organizers separately and stack them on top of each other to create a larger storage solution.

How many shoes can you store in a Container Store?

The Container Store 2-Tier Bamboo Stackable Shoe Shelf features two bamboo shelves with slats, and you can stack multiple for even more storage space. One rack can hold about six pairs of shoes, though we found that it's best for sandals, sneakers, and flats--larger boots won't fit on the shelves, which are only 5.25 inches tall.

How many pairs of shoes can a stacked shoe shelf fit?

If you're looking to keep costs as low as possible, then we suggest the Mesh Stackable Shoe Shelf from The Container Store. This basic, no-frills organizer can fit up to eight pairs of shoes, but you can always stack additional shelves on top for even more storage space.
