

Make your own solar powered light tube

Some explanation if you're not familiar with Solar Light Lids: To make this project, one thing you absolutely will need is solar light lids. There are lots of different solar lights for mason jars but we love these solar mason jar ...

My favorite part of this solar bird bath is the birdbath bubbler. It contains solar panels, a battery-operated pump, a spray fountain and LED lights that come on at night. Essentially, the unit runs on its own without you having to connect it to ...

Step 6. Prep and install acetate sheets to your garden solar light. Using your sander, sand your sheets of acetate to give them a matte finish. These sheets will diffuse the light of your solar lights. Using hot glue, adhere the acetate sheets ...

DIY Solar Power Lights. There are usually four parts to most solar-powered outdoor lights - solar panel, battery, charge controller and load (such as a light bulb). A solar panel produces electricity from the sun and ...
