Does the government offer free solar panels?

The government does not have any programs that offer totally free solar panels. However, several state and federal government programs can help you access solar energy equipment with lower upfront costs. These tax credits and incentives can reduce solar installation costs, making solar energy more accessible.

Are "free" solar panels a good idea?

The concept of "free" or "no-cost" solar panels really is too good to be true. "Free" solar panels are essentially rented from solar companies. While you will reap the benefits of cheaper electricity bills through solar power, you do not own the panels; the solar company does. Once your lease agreement is up, the panels will be removed.

Are free solar panels a lie?

While the word "free" implies there are no associated costs, this is not usually the case with free solar panel offers. "I have never seen an advertisement offering free solar that is not a lie," said Neil Gallagher of Brighterway Solar, a solar installation company in Florida.

How do I choose a solar panel installation company?

Customer ratings and reviews can provide an abundance of insight into how a company and its employees operate, so be sure to seek out highly rated companies. One final way to determine if a solar panel installation company is the right fit is to see what kind of solar equipment it uses.

Are free solar panels a scam?

Many other "free" or "no-cost" solar programs are outright scams. Tax credits and other incentives can reduce the upfront costs of going solar without committing you to unfavorable terms -- just make sure they're legitimate. Can you get free solar panels?
