

Mc Advanced Solar Generator Power Generation

What is an advanced solar generator?

The Advanced Solar Generator is a highly upgraded version of the basic Solar Generator. Construction of an Advanced Solar Generator requires four Solar Generators, but it produces six times the power of its smaller counterpart. It also requires an area of 3x3x3 Blocks in order to be placed.

How much power does the advanced solar generator produce?

The Advanced Solar Generator only produces full power during a clear day. It produces no power during night time, and only 20% of what it would otherwise during a rain. By default the Advanced Solar Generator produces 300 J/t in direct sunlight, and can output a maximum of 600 J/t. This amount can be changed inside of the Mechanism Config.

How does the advanced solar generator work?

The Advanced Solar Generator has a small internal buffer of 80,000 RF, so use of an energy storage cell is strongly recommended. The produced energy can be fed into a power grid (e.g. via Basic Universal Cable), or it can be stored into portable storage items (e.g. Basic Energy Cube or RE-Battery) inside the GUI.

How do I use an advanced solar generator?

Advanced solar generators only produce electricity during the day. A multimeter cable or other compatible cord can be connected to the edge of the base with the green square. Right click on the generator with a wrench or Configurator set to Rotate to rotate the entire assembly. Bio-Generators produce electricity from Biofuels.

How much power does a solar generator produce?

It uses solar energy to generate power of up to 300 J/t (120 RF/t). It can store up to 200 kJ (80 kRF), with a maximal output of 600 J/t (240 RF/t). This generator is an upgraded version of the Solar Generator which outputs 6 times as much power as its lower tier counterpart does.

What happens if a non-transparent block is above the advanced solar generator?

A non-transparent block above the Advanced Solar Generator will stop its production. The generator's GUI shows the amount of energy stored, if the sun is up and the maximal output. Advanced Solar Generator has no known uses in crafting. If playback doesn't begin shortly, try restarting your device.

It's not a great solution, but it's enough to skip the rather poor Heat Generator. Heat Generator. Surround it by lava (do not put the lava in it to be consumed) for a small amount of free power. ...
