

What is the global microgrid market size?

The global microgrid market size was estimated at USD 76.88 billion in 2023 and is expected to grow at a compound annual growth rate (CAGR) of 17.1% from 2024 to 2030. Rising power demand in developing countries including Mexico, China, India, and Russia as a result of growth in household and industrial sectors is expected to be a driving force.

How big is the microgrid market in 2024 & 2032?

The market is further expected to grow at a CAGR of nearly 10.4% in the forecast period of 2024 and 2032 to reach a value of approximately USD 70.74 billion by 2032. The dominant region for the microgrid market is North America, accounting for a quarter of the market share.

What are the research prospects for a microgrid?

Finally, future research prospects in long-term low-cost energy storage, power/energy balancing, and stability control, are emphasized. 1. Introduction A microgrid is a power grid that gathers distributed renewable energy sources and promotes local consumption of renewable energies .

What are the regional microgrid markets?

The regional microgrid markets include North America, Europe, the Asia Pacific, Latin America, and the Middle East and Africa. There is an increasing demand for microgrid systems that allow customers and developers to achieve the environmental goals by using renewable energy as a source of electricity.

What are the key factors affecting the microgrid market?

The microgrid market is expected to have a robust growth during the forecast period, primarily due to two main factors, i.e., the global demand for clean energy generation and a self-sufficient source of power generation in times of crisis or grid disconnection.

Where is the microgrid market located?

The dominant region for the microgrid market is North America, accounting for a quarter of the market share. Development in the region is triggered by the growing use of microgrid in defence as well as remote systems to improve cyber-attack protection.

Microgrid Control System Market Size And Forecast. Microgrid Control System Market size was valued at USD 4.03 Billion in 2024 and is projected to reach USD 10.53 Billion by 2031, growing at a CAGR of 12.76% from 2024 to 2031.. A ...
