

Mobile solar power pole price

What is a pole-mounted solar power system?

Pole-mounted solar power systems feature an array of solar panels that are mounted on the top of or on the side of a pole that is set in the ground using a sufficiently-engineered concrete footing.

What is a pole-mounted solar power kit?

Additional options include solar panel upgrade, batteries, and battery enclosures. These pole-mounted solar power kits are the perfect solution to your remote power needs for applications such as scientific, government, and military remote sensing, telecom, traffic signalling and control, and oil and gas flow monitoring and telemetry.

Why should you choose a pole-mount solar power system?

We also have extensive experience working with state Departments of Transportation, which has made our DOT solar power relationship a lasting success. Pole-mount solar power system kits are the perfect solution for powering industrial applications remote locations.
