

National Subsidy Policy for Microgrids

What policies have been implemented to promote the development and adoption of microgrids?

Several countries have implemented policies to promote the development and adoption of microgrids. In the United States, the Federal Energy Regulatory Commission (FERC) has implemented Order-2222, establishing rules enabling microgrids to participate in wholesale energy markets.

How does government support microgrids?

Support for microgrids comes from research and development (R&D) programs at federal and state levels, software and tools, grants and funding support to incentivize demonstration projects, and tax and financial incentives for the installation of distributed energy [2, 3, 6, 126].

Do policies and incentives hinder the deployment of microgrids?

However, apart from the technical challenges, few microgrid studies exist on effective policies and incentives for microgrid promotion and deployment. This survey investigates the policy, regulatory and financial (economical and commercial) barriers, which hinder the deployment of microgrids in the European Union (EU), United States (USA) and China.

What is a microgrid strategy?

The Strategy development process began with microgrid experts deliberating on areas the Strategy should focus on for impactful results in key metrics, such as reliability, resilience, decarbonization, and affordability, in the next five to ten years.

Should lawmakers support microgrid development?

As lawmakers in other states consider whether to support microgrid development, it's important that policies consider the full value and reflect the suite of benefits that microgrids can provide the power grid to harness their full potential.

Which states have included microgrids in grid modernization initiatives?

Colorado, Minnesota and New Mexico have included microgrids under broad grid modernization initiatives. In Colorado and Minnesota, the legislatures require regulated utilities to develop and submit transmission and distribution system plans to the state PUCs.
