

# New Third Board Photovoltaic Loan

What is third-party solar financing?

Third-party financing is a well-established financing solution in the United States, having emerged in the solar industry as one of the most popular methods of solar financing. Third-party solar financing predominantly occurs in two forms: solar leases and power purchase agreements (PPAs).

Can you buy solar panels with a loan?

Financing via a solar loan is a path to ownership, while third-party ownership (TPO) options include solar leases and PPAs. You can also purchase your panels outright with cash, which means no payment plan or financing is necessary.

What is solar financing?

Solar financing is the means by which homeowners pay over time to own or otherwise use third-party-owned solar energy systems so they can produce their own power and save money on electrical bills. Financing via a solar loan is a path to ownership, while third-party ownership (TPO) options include solar leases and PPAs.

Where can I get a solar loan?

Many different institutions offer solar loans, including local and national banks, specialty financing companies, manufacturers, and credit unions. To choose the best solar loan for you, compare options from a few different financing providers. Use the EnergySage Solar Marketplace to review multiple equipment, installer, and financing options.

What is a solar PPA / lease?

Solar PPAs or leases are best for those with financial restrictions who still want to power their home with solar energy and reduce their carbon footprint. Some of the best solar installers offer their own financing, often through a third-party lender that they partner with.

What is the best type of solar panel financing?

For many people, the best type of solar panel financing is probably a personal loan for solar. A personal solar panel loan will come with fixed interest rates and fixed monthly payments that never change during the life of the loan. Some home improvement loans have higher limits or longer terms to make it easier to pay for more expensive options.
