

# Outdoor solar panel test

How do I find the best solar panels for camping?

To find the best solar panels for camping, I put high-performing models from the top brands to the test: I've been testing portable solar panels and solar chargers for years, pitting dozens of models side-by-side in a variety of conditions.

What makes a solar panel a good choice?

When buying a solar panel, charging efficiency and dependability are downright crucial. The BigBlue SolarPowa 28 (with no ammeter) stood out as one of the most efficient panels we tested in direct and indirect solar charging tests. This 28-watt model performed better in variable conditions than every other panel we tested.

What is the best portable solar panel?

The BigBlue is impressively efficient in its charging capabilities and performed the best in all our testing of portable solar panels. This model is the fastest portable model we tested, and it delivers consistent charging even as conditions change. Whether it's cloudy or sunny, you'll get good charging capabilities from this model.

What is a portable solar panel?

A portable solar panel generally has fewer solar cells, which translates to less power converted from sunlight to electrical energy or watts. The overall scores for each portable panel we tested are shown in the chart below. Portable solar chargers balance packability and charging capacity.

How effective is a solar panel in the Sun?

On a sunny day in Colorado at 5,000 feet, the SolarPowa generated 1849.3 mAh of charge in one hour on its 10,000 mAh test battery. This is the most of any portable solar panel we tested. The SolarPowa 28 is incredibly efficient in direct sun.

Which solar panel should I buy?

That gives you a lot of flexibility for pairing it with other (potentially non-Jackery) power stations that are already in your arsenal. The Bluetti PV120 Solar Panel is one of the best solar panels I've tested, and just barely squeaked out the Anker SOLIX 100 for the top slot in the 100W category.

Testberichte Testberichte Goal Zero Neu 7 im Test: Das Solar-Ladegerät f&#252;r Outdoor-Trips Goal Zero Neu 7 im Test: Das Solar-Ladegerät f&#252;r Outdoor-Trips. Von Uli Wittmann. 5 Minuten Lesezeit 10. Dezember 2014. ...
